SUMMARY

Aspiring Software Developer and AI/ML Engineer with hands-on experience in full-stack web development, machine learning, and scalable applications. Proficient in Python, Java, React.js, and REST API development, with strong foundations in data structures, algorithms, and database management systems. Passionate about building data-driven solutions and optimizing system performance.

EDUCATION

Bachelor of Technology in Computer Science and Engineering	July 2024 – June 2028
Gandhi Institute of Engineering and Technology, Gunupur	CGPA: 8.98 / 10 (4th Semester)
Higher Secondary (12th, CHSE) – Nalanda Vidya Mandir, Berhampur	2023 80.16%
Secondary (10th, BSE) – Khallingi High School, Ganjam	2021 82.5%

SKILLS

- Programming Languages:** Python, Java (Core & Advanced), C, TypeScript
- Web Development:** React.js, Next.js, Node.js, Express.js, Flask, Three.js, Tailwind CSS, REST APIs
- AI/ML & Data Science:** Machine Learning, Deep Learning, NLP, NumPy, Pandas, OpenCV, Model Building
- Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS
- Tools & Platforms:** Git, GitHub, Supabase, Firebase, MySQL, Vercel, Railway, Figma

EXPERIENCE

Python with MySQL Intern	2024
<i>Internship – Database Programming and Backend Development</i>	
- Developed 10+ Python-based backend scripts for database connectivity, CRUD operations, and automated data processing workflows - Reduced manual data entry time by 40% through automation integrated with MySQL databases	

PROJECTS

Full-Stack Web Application – Data Science Club Website HTML, CSS, JavaScript, UI/UX	gietdsclub.me
- Developed and deployed the official web platform for GIET University's Data Science Club, serving 200+ members - Implemented responsive design with event management, project showcase, and structured learning resources	
AI-Based Interview Preparation Platform Computer Vision, NLP, Multimodal AI	vivasense.app
- Engineered a multimodal AI system analyzing video, audio, and text data streams to evaluate interview performance - Applied facial expression recognition across 7 emotional states with speech analysis for actionable feedback	
Full-Stack Room Finder Platform React.js, Node.js, Supabase	room-finder-kappa.vercel.app
Built and deployed a rental platform with location-based search, filtering, and real-time data handling, serving 50+ users	
CyberGuardian AI Conversational AI, Emotion Detection	cyberguardianai.tech
- Developed an AI-based training system simulating 5+ real-world scam scenarios using behavioral analysis - Improved user awareness by 85% through targeted cybersecurity education and vulnerability detection	
CareerSoulmate – AI Career Guidance Platform Machine Learning, Web Scraping	career-soulmate-client.vercel.app
Designed an AI-powered career recommendation system analyzing 10+ career paths with ML-based profiling	

ACHIEVEMENTS

- Secured University First Rank in 1st year B.Tech with 9.82 CGPA among 500+ students
- Participated in Smart India Hackathon (SIH) 2025 – satellite image analysis for land-use pattern detection
- Awarded PMST Merit Scholarship for academic excellence in 10th grade
- Received Rs. 10,000 cash prize for Solar Panel Wiper project at district-level science exhibition

CERTIFICATIONS

- Data Science Course (Python, NumPy, Pandas, Machine Learning Fundamentals) – CodeWithHarry
- Python with MySQL Internship Certificate – GIET University
- Hacknovation 2.0 – Hackathon Participation Certificate
